This section contains rules corrections and official errata for the Star Wars Miniatures games.

Black Sun

Add the following text to the rulebook entry:

Characters whose names contain Black Sun also count as Black Sun for purposes of effects but do not gain the other benefits of the Black Sun ability.

Crack Gunner +[#]: When this character combines fire with adjacent allies with Mounted Weapon, it grants the stated bonus to Damage on that attack. Enemies cannot use abilities such as Evade or Lightsaber Deflect to avoid that damage, Damage Reduction has no effect, and abilities such as Draw Fire or Bodyguard cannot change the target of the attack or redirect its damage. Likewise, abilities that reflect damage back to the attacker have no effect against that attack. Crack Gunner does not affect damage from effects that are not attacks, such as Force Lightning.

Hand of the Emperor

In addition to spending its own Force Points once per turn, this character can spend Force points from a character whose name contains Emperor Palpatine once per turn. A character whose name contains Emperor Palpatine must be in your squad to use this ability.

Lightsaber Reflect

Replace the rulebook entry with the following:

Lightsaber Reflect: (Force; 2 Force points) When a character using this Force power is hit by a nonmelee attack, it can avoid the damage with a save of 11. If this character avoids damage in this way, the attacker takes the stated

amount of damage unless it makes a save of 11. You must decide whether to use this Force power immediately after the attack hits.

Soresu Style Mastery

Replace the rulebook entry with the following:

Soresu Style Mastery: When this character is hit by an attack, it takes no damage with a save of 11.

Blaster [#]

Replace the rulebook entry with the following:

Instead of making its normal attack or attacks, this character can make one attack against a target enemy in line of sight, ignoring the Melee Attack restriction, at the specified Attack value, dealing [#] damage. This counts as a nonmelee attack for purposes of effects such as Lightsaber Deflect and Molecular Shielding.

Galloping Attack

This ability is usable only on this character's turn.

Ion Gun

Replace the rulebook entry with the following:

Ion Gun +[#]: The character gets a +[#] bonus to Damage against nonliving enemies.

Strafe Attack

This ability is usable only on this character's turn.

AT-AT Imperial Walker

AT-AT Imperial Walker (Imperial, 1/1) Heavy Laser Cannon (1 activation: Make 2 attacks, Attack +6. On a hit, 60 damage to target; each character adjacent to
